## Material Safety Data Sheet

### Expanded Neoprene Sponge Cord

#### STORAGE

Store in dry, cool place protected from direct sunlight and extremes of temperature. It is recommended that the minimum storage conditions for products should be those detailed in BS3574, coupled with strict stock rotation. No food or drink to be consumed in the storage area. No smoking in the storage area.

#### HANDLING AND USE

All operators using A.S Rubber products must have received proper training with regard to Health and Safety Aspects. No contact permitted with naked flame, sparks or other sources of ignition to be allowed. No food or drink should be stored or consumed where A.S Rubber products are handled. Washing facilities should be provided and personnel encouraged to use them prior to consuming food, drink or smoking.

#### PROTECTION

Gloves should be worn by personnel who frequently handle rubber products to protect them from skin irritation which might arise with people prone to skin sensitivity.

## FIRE PRECAUTIONS

In the event of fire, emission of soot, black and opaque fumes very rich in carbon and sometimes tear-exciting with a suffocating smell, may result with possible release of sulphur dioxide, carbonic gas, various gaseous compounds as carbon monoxide, hydrogen and carbon into the atmosphere.

Therefore, inhalation of the fumes must be avoided and breathing apparatus in necessary in a confined space.

## EXTINGUISHING MEDIA

In the event of a small fire, carbon dioxide, powder, foams, water spray must be used.

## DISPOSAL

Incinerate or landfill according to Local Authority Legislation
